### **DETAILED ACTION**

This is the first Office action on application 10,526,109. There are seven claims pending, all of which are subject to this restriction requirement.

#### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1, 4, and 5, drawn to a protein of SEQ ID NO: 1 or fragment thereof and pharmaceutical compositions made therefrom.

Group II, claims 2, 3, 6, and 7, drawn to nucleotides of SEQ ID NO: 2 or fragments thereof and pharmaceutical compositions made therefrom.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, there is no nexus between the two compositions represented in Groups I (proteins and peptides composed of amino acids) and Group II (polynucleotides composed of nucleic acids). The two inventions and the sequences claimed are different compositions of matter. Thus, Groups I and II lack a single general inventive concept and are patentably distinct.

3. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required and because the inventions have acquired a separate status in the art due to their

Art Unit: 1654

recognized divergent subject matter, restriction for examination purposes as indicated is proper.

***Inventorship***

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Conclusion***

5. No claims are allowed.

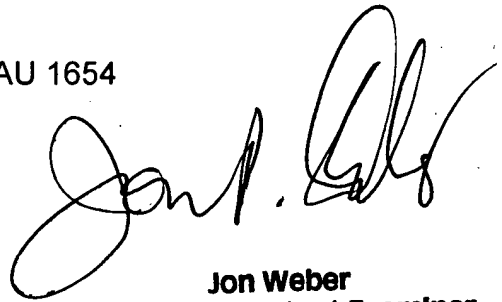

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hugh P. Young whose telephone number is (571)-272-4988. The examiner can normally be reached on 8:00 AM - 5:00 PM.
